

MINUTES OF PARKS AND BEAUTIFICATION COMMITTEE

The Village of Enon Parks and Beautification Committee met at 6:00 PM on Tuesday, March 23, 2021 at the Government Center. Present were Ben Bear, Rilla Fogle, Rick Hanna. No Public called in. Meeting was streamed on YouTube as well

Administrator opened up the meeting discussing the NatureWorks Grant with the committee. Mentioned that the grant is due June 1st. Some ideas for the grant were discussed and listed:

1. Playground Equipment
2. Basketball Court
3. Expanding the existing walk path w/ renovations to the path as well making it more user friendly and accessible and possible trail fitness equipment stations

Mr. Hanna suggested to the committee to possibly make contact to Speedway/7-Eleven and Seepex to see if they would be interested in partnering with the Village in this grant to leverage more money for a bigger project.

The admin will reach out to both and report back with any information as obtained. Mr. Hanna also mentioned about the possibility of upgrading the Welcome to Enon signs at each entrance to the Village. The admin will research ideas and present to committee members.

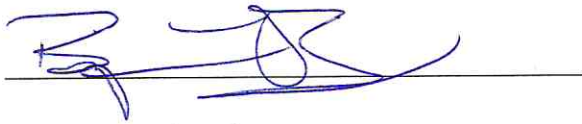

Discussion from Mr. Hanna about a bridge of some sort to connect the area from Cardinal Dr. to Galloway Park/ Sunny Brook area. At one time there was discussion of this idea with some residents opposing the idea so no further action was taken at that time. It was mentioned at the meeting that this would be a good idea for walkers and a great use of the trail area that is currently there. More discussion to be heard regarding this idea.

Mrs. Fogle mentioned about a dog park and a water park for the Village. 2 great ideas that would need to be discussed further.

Admin will begin to get pricing on the repair and extension of the walk path for the NatureWorks Grant and bring to the committee.

Ben Bear moved to adjourn, second by Rilla Fogle

Meeting adjourned at 6:30PM
