May 1, 2024

Dear Resident,

The OEPA new Lead and Copper Rule, is mandating that all cities and villages in Ohio take an inventory of the water service lines that are entering into resident's houses as well as all businesses located within cities and villages. The Village of Enon has no known lead service lines recorded, however, **we need your help** in assisting us with completing this OEPA Survey Project. The enclosed information explains what is needed for this project. We are asking that you complete the survey and return it to the Village Office by **June 3, 2024**, so that we can submit our results to the OEPA.

Thank you for your cooperation and willingness to help with this very important request.

Respectfully,

Kevin Siferd
